Double USDT 30 Days is a non-profit organization, which works with children who are diagnosed with cancer. We work on two projects – The Accommodation Project and The Survivor Project.

**We want to open up a world of opportunities for every vulnerable by ensuring food security.**

# Join us in our effort to feed and nourish the marginalized section of the society.

## **Integrity in everything we do**

We strive never to take the easy path, but always the honest one. We practice integrity in all our actions and try to do the right thing by every stakeholder.

## **Serve with passion**

We are fiercely committed to our purpose of poverty alleviation, and work with a burning desire to make a difference.

## **Empathy for all**

We are committed to working together with unconditional respect, freedom, trust and support for each other.

# What is P2P?

A peer-to-peer network is a simple network of computers. It first came into existence in the late 1970s. Here each computer acts as a node for file sharing within the formed network. Here each node acts as a server and thus there is no central server in the network. This allows the sharing of a huge amount of data. The tasks are equally divided amongst the nodes. Each node connected in the network shares an equal workload. For the network to stop working, all the nodes need to individually stop working. This is because each node works independently.

# What is Crowdfunding?

## 100% Safe & Secure

Crowd funding is the use of small amounts of capital from a large number of individuals to finance a new business venture. Crowd funding makes use of the easy accessibility of vast networks of people through social media and crowd funding websites to bring investors and entrepreneurs together, with the potential to increase entrepreneurship by expanding the pool of investors beyond the traditional circle of owners, relatives, and venture capitalists.
